

## REMANUFACTURING WORKSHOP

This one-day workshop is hosted by the REMADE Institute. The Institute is committed to finding new and less expensive ways to reuse, recycle and remanufacture metals, fibers, polymers and electronic waste.

Remanufacturing offers New York State industries a unique business opportunity to:

- Leverage existing technologies to improve your bottom line.
- Learn about new technologies that can benefit you.
- Share best practices.
- Explore funding opportunities and remanufacturing support.

NYSTAR programs and centers emphasize the importance of working with industry to leverage New York State's technology strengths to produce new products.

Platinum Sponsor

**MONDAY, JULY 22**

9:00 am	Registration and Networking
9:30 am	Remanufacturing Business Opportunities
9:50 am	NYS Asset Introductions
10:10 am	Breakthrough Process Technologies for Remanufacturing
11:00 am	Networking Break
11:30 pm	Seeing Beyond the Surface – Non-Destructive Inspection and Condition Assessment Technologies
12:30 pm	Lunch and Networking
1:15 pm	Remanufacturing Best Practices Panel Discussion
2:00 pm	Break
2:15 pm	Breakout Session – Overcoming Hurdles to Remanufacturing & New Technology Adoption
3:15 pm	Remanufacturing Support & Funding Opportunities: Panel Discussion
4:00 pm	Breakout Key Insights & Feedback
4:25 pm	Site Tours
