

Business Plan Assistance

Insyte Consulting helps start-ups and existing manufacturing and technology businesses develop and refine their business plans.

A concise, well-organized business plan is not only a roadmap to your future success, but is also an important communication tool to lenders, investors and employees.

Expertise in Addressing Your Unique Issues

Assistance provided by Insyte Consulting may include:

- Guiding you through the business planning process
- Review and critique of business plans
- Obtaining market and other data for incorporation into the plan
- Assistance in revenue forecasting and budgeting
- Collaboration in the development and writing of parts or sections of the plan

Typical Projects

The Insyte Consulting team has experience in a variety of business functions and industries. Other areas that Insyte Consulting can assist in include:

- Strategic Planning
- Market Research
- Marketing and Sales Planning
- Financial Planning
- Operational Assessment
- Manufacturing Planning
- Mergers and Acquisitions

The Insyte Consulting Advantage

Insyte Consulting's many years of experience with what banks, investors and other outside parties expect to see in a business plan helps us to help you develop a quality plan. In addition, the multi-industry, multi-functional backgrounds of our people enable us to assist you in organizing and articulating your business ideas in a professional and complete document, as well as in "fleshing out" your ideas.
